

### How is an Elevate Building Transported to Site and What Does it Cost?

The cost of transporting a building from our Cambridge yard to your site will vary depending on travel distance, site difficulty etc. We'll put you in touch with a reliable and experienced home transport company, who will look after all aspects of the building transportation. Here are some ballpark figures to give you an idea of transport cost from Cambridge to the following regions:

Northland	\$40K
Auckland	\$35K
Waiheke Island	\$60K
Waikato	\$30K
Bay of Plenty	\$35K
Gisborne	\$35K
Hawkes Bay	\$35K
Taranaki	\$40K
Manawatu- Wanganui	\$40K
Wellington	\$45K

Transport insurance is also recommended and is approximately 1% of the cost of the building.

**Note:** The estimated costs above include the piling and installation, assuming a relatively flat site. Steep sites may require a building contractor to install the piles before the building arrives at site. Our buildings can also be craned on to site if required.
